

Pricing

Admin Category for Pricing Settings

Price Plans are what you use to charge sellers for placing listings on your site. There are a variety of options you can use and implement when setting up your Price Plans. Since a Price Plan is attached to a User Group, and each user on your site belongs to a User Group, you will use a Price Plan to designate on a User Group basis the fees applied to every member of that User Group.

<tip c d n> **NOTE:** In order for you to change the Price Plan for a particular user, you need to move that user to different User Group that has the desired Price Plan assigned to it. </tip>
