

Downloading Software

To download your software's file set for installation or update you will first need to log into your client area at our site. Then click the following:

CLIENT AREA (in link bar on all pages of our site) > MY DOWNLOADS

You'll be taken to a page like this one:

Name	Notes	Created
GeoClassAuctions Enterprise (Upgraded to GeoCore) - Key: ClassAuctions_ENTER-3-F2862177auth9999 - Installed At: www.127.0.0.1, 127.0.0.1, www.JamesHappy.geo, www.James.geo, James.geo, Happy.geo, www.Happy.geo, localhost, www.localhost	Access to new downloads has expired. GeoCore - Purchased License - Key: GeoCore-639777auth0003 - Installed At: local.geo, www.local.geo		10/10/2012

And within that page you will click on the license key for the license you wish to download for....like shown with the arrow in the above screenshot.

From here there are two options depending on whether your download access to the software has expired or not.

You Have Current Download Access

If your download access is current you are able to download the current release of the software. And within the next page after clicking on your license above you will see this next page and click the **Current Release** link in that page:

You are here: Client Area > My Packages > GeoCore - Purchased License

Downloads Licenses Addons & Services Premium Support View Details

Download access will expire on 01-01-2015. Show Renewal Options

Home

_Developer BETA Release

if your download access is current click the "current releases" link to download the latest available version of the software

That will take you to a page like this one:

You are here: Client Area > My Packages > GeoCore - Purchased License

Downloads Licenses Addons & Services Premium Support View Details

Download access will expire on 01-01-2015. Show Renewal Options

Home > Current Release

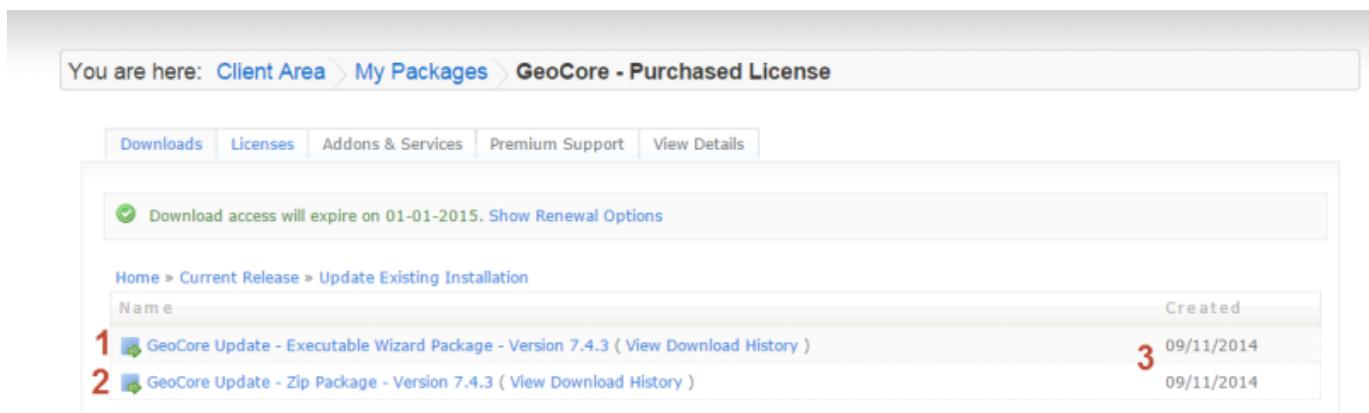

New Installation

Update Existing Installation

click the "New Installation" link if you are installing the software new or in a new location

click the "Update Existing Installation" link if you want to update your current installation to the latest version

Depending on whether you are making a new installation or updating your current installation determines which link to click from here. See the image above for more. Click the **New Installation** to install the software new and **Update Existing Installation** to update a current installation of the software. On the next page you'll see another two options as shown in the following screenshot:

You are here: Client Area > My Packages > GeoCore - Purchased License

2 GeoCore Update - Zip Package - Version 7.4.3 (View Download History)	09/11/2014

Within that screenshot you'll see:

1. Executable Wizard Download - If you wish to use the executable wizard to install/update the software click this option. There is more on the executable wizard within other pages of this support wiki section.
2. Zip File Download - If you wish to use the zip file to install/update the software click this option. There is more on the zip file installation within other pages of this support wiki section.
3. Date that version was released.

You Do NOT Have Current Download Access

If you wish you can renew your download access through the **Renew Options** link as shown in the

following page after you have clicked:

CLIENT AREA (in link bar on all pages of our site) > MY DOWNLOADS

My Downloads

if your download access has expired for the license you wish to install/update click the Renew Options link to see your options for renewing

You are here: Client Area > My Downloads

if you download access has expired you can renew your download access to the latest version of the software. You can see the renewal options for JUST download access or the priority support/download access. Just click these links to see the options

Red arrows point from the text "if you download access has expired you can renew your download access to the latest version of the software. You can see the renewal options for JUST download access or the priority support/download access. Just click these links to see the options" to the "Extend Download Access to Updates See Options »" and "Combo Options: Update Support AND Download Access See Options »" links.

NOTE: As we make new releases of the software available in the "client area", you may see additional downloads for your edition. These may have an **RC1** or similar postfix added to the end of the version number. RC stands for Release Candidate, which means that the download is being proposed for release. So, although the RC release is available to you, it is still undergoing some internal testing. Typically, if we post an RC to the [client area](#) it is safe to download. For example, you may see *Version 4.5.0RC1* available for download.
