

Signs & Flyers

The Signs & Flyers Addon allows your customers to print out a sign and/or flyer for each of their active listings on your site. They will do this through their "Active Listings" page within their "My Account" pages on your site. The design of the Sign and Flyer is determined by you through an html template from within the Templates Menu. A default design is provided for you to use when the Addon is installed, but it can be easily replaced with your own design.
