Extra Pages

The Extra Pages feature is one of the more powerful features of the software. These pages enable you to set up additional 'instructional' pages, such as 'contact us', 'about us', 'how it works', etc. and at that same time allow you to take advantage of the software's dynamic properties, such as templates and modules. This is because you can assign a template to these pages and display any content you wish by entering it into the "MAIN BODY TEXT" field for each page. That data is then displayed through the MAINBODY tag located within the assigned template.
