<tip n c>**NOTE:** As we make new releases of the software available in the "client area", you may see additional downloads for your edition. These may have an **RC1** or similar postfix added to the end of the version number. RC stands for Release Candidate, which means that the download is being proposed for release. So, although the RC release is available to you, it is still undergoing some internal testing. Typically, if we post an RC to the [client area](#) it is safe to download. For example, you may see *Version 4.5.0RC1* available for download.</tip>

Access Denied Error

When you click the **Download** button as described in the instructions above, are you getting an error message similar to the one displayed below?

This means that your *Support & Software Updates/Downloads* package has expired. You receive a full year of *Support & Software Updates/Downloads* included in every new product license purchased. After the year is up you can extend the service for another year by clicking on **[Renew]** link on that same page under the **Update Packages Purchased**. See screen shot below.
